

The Overlord was specifically designed for tactical operators with feedback from multiple Special Operations Groups. The flexible and durable rubberized matte black frame is equipped with a soft thermoplastic rubber nosepiece and temple arms to create a comfortable, nonslip fit. The blade-style lenses can be easily and quickly interchanged with one gloved hand and no tools. Vapor Shield elite performance anti-fog is standard for all lenses for this frame. Vapor Shield is a long lasting anti-fog lens that is tested under extreme conditions to guarantee resistance to condensation for clear vision when you need it most.
